

ES Series Digital Torque Screwdriver

- Accuracy: CW±3%, CCW±5% from 10% to 100% of capacity
- Torque units: Lb.in, cNm, Kg.cm.
- Target torque can be easily set on the LCD display.
- Led light and buzzer alarming.
- Backlight can be turned on, good for dark condition.
- Peak value hold function.
- Automatic zero clearing when used continuously.
- Battery level display.
- The built-in lithium battery can be charged by the dedicated the charging adapter.
- Automatically shuts off after 3 minutes of non use.
- There's a 1/4" female square hole at the end, convenient for users to insert a T-bar for tightening screws with high torque (usually for 250cNM and above).

Metric

Item No.	Square Drive	Torque Range cNm	Length mm	Width mm	Weight kg
ESM1100	1/4"	20-100	210	40	0.23
ESM1250	1/4"	50-250	210	40	0.23
ESM1360	1/4"	60-360	210	40	0.23
ESM16	1/4"	1-6*	210	40	0.23

*Unit is Nm.

English

Item No.	Square Drive	Torque Range Lb.in	Length mm	Width mm	Weight kg
ES136	1/4"	6-36	210	40	0.23
ES150	1/4"	10-50	210	40	0.23
